SUMMARY

Shafranyosh O. CHARACTERISTIC FEATURES OF ANTI-GLOBALIZATION MOVEMENT IN USA AT THE END OF XX CENTURY, AND THE BEGINNING OF XXI CENTURY: STRUCTURE AND ORGANIZATIONS.

In this article author researches the problems of the anti-globalization movement in USA in XX-XXI century, analyzes the activity of the main organizations of the movement. The anti-globalization movement is movement which is critical of the globalization of capitalism. Anti-globalization activists generally call for forms of global integration that better provide democratic representation, advancement of human rights and more egalitarian states. The movement is actively developing in the USA, forming their organizations and political and economical programs.
