## PREFACE

The issue of ACTA FACULTATIS STUDIORUM HUMANITATIS ET NATURAE UNIVERSITATIS PRESOVIENSIS presents to a return to previous the original scientific journal of ACTA UNIVERSITATIS PREŠOVIENSIS – FOLIA OECOLOGICA which is changing the editorial board and its malfunction in a printing in this time.

Faculty of Humanities and Natural Sciences, Faculty of Orthodox Theology and Greek-Catholic Theological Faculty of University of Prešov in Prešov and co-organizer Medicproduct, a.s., Lipany have taken the International Scientific Conference entitled “*New Trends in Ecological and Biological Research*” in September 9th to 11th, 2015 at the University of Prešov in Prešov, 17. Novembra 1, Prešov.

The organization of scientific conference was one of the main output of the project financed by EU Structural Funds Agency (Operational programme: Education) entitled: “*Acceleration of Development of Human Resources in Science and research, Innovation and Quality Improvement of the Educational Process*” (ITMS: 26110230069) with the non-repayable budget: 945 389. 02 Eur. In period 2013 – 2015, the project brought us many evaluated outputs in the activities:

- creating and improving programs of study in natural sciences, social sciences and humanities,
- preparation and publication of university textbooks and college textbooks,
- strategy of management with an emphasis on improving the quality and the quantity of PhD students and post-doctorands,
- increasing competence of creativity and publishing skills of university employees in scientific journals,
- the creation and development of resident scientific journal and organization of the scientific event,
- development of associated department of the University and sections of research and development of private companies,
- mobility university staff, posts doctor ands, PhD students and students within the European area.

The conference was bringing together the scientific community engaged in research and development in all aspects of ecology, biology and theology. More than 70 scientists from 10 countries (Australia, USA, Turkey, Slovenia, Greece, Poland, Ukraine, Czech Republic, Hungary, and Serbia) attended this conference.

Many participants supported to me their manuscripts of full research and expert papers in time after the conference. On the other hand the PhD. students, young researchers and their supervisors had in this case opportunity to submit their manuscripts for publication in this volume of the ACTA FACULTATISSTUDIORUM HUMANITATIS ET NATURAE UNIVERSITATIS PRESOVIENSIS.

Submitted manuscripts were reviewed and amended to referee suggestions prior to acceptance. The papers are significant contribution to the overall quality of the publication.

*Ivan Salamon*
