SUMMARY

Mokra L. M. OLSON: „THE CREATION OF GROUPS ACCORDING TO THE INTERESTS”.

The political activity of groups, which are created with the purpose to reach certain interests was analysed according to the theory of rational choice of M. Olson. In this theory the researcher gives the answer to the question why do individuals create groups and join them. The motivation of groups activity in politics, which is a secondary product and unforeseeable result of nonpolitical groups activity is considered.
